Final Year Project (FYP)
Week 1

FYP - What is it?

- The point of FYP is new knowledge
- Typically a 2-semester project
- A product and/or a report
- What is already known → find out something not known → present
- Guided by supervisor(s), with you driving as much as possible
- Graded milestone submissions such as:
  - Proposal form, Interim report, Final report

Roles

- FYP coordinator is an administrative role to help guide students through the process on high-level not project specific (guidance by supervisor)
- FYP is guided by supervisor(s), with you driving as much as possible
  - The supervisor needs be a full-time UL staff member

The role of the supervisor

- Supervisor meetings
- Guide project throughout the entire duration
- Mark your submissions, together with second reader

You should:

- Know what supervisor expects
- Schedule regular meetings with your supervisor, attend meetings and come prepared
- Submit intermediate drafts/versions as agreed with supervisor
- Take ownership of your project – supervisor guides, but you drive the project forward

Some FYP pitfalls

- Unable to take feedback into account, be confident but also take constructive feedback into account
- Not sticking to meeting deadlines
- Not meeting supervisor regularly
- Procrastinating

ISE FYP 2026

Name	Connected to RP	Format
Research Paper Project	Preferably but not necessarily	Academic paper format

CS4437 FYP Assignments

Assessment	% of Grade	Deadline
FYP Proposal Form	10%	28/09/2026
Interim FYP Report	90%	25/10/2026

Late Submission Penalties

Late Submission	1 day late	2 days late	3 days late	4 days late	5 days late	6 days + late
Grade reduction	-2%	-4%	-6%	-8%	-10%	NG

Final FYP Report

Final FYP Report to be submitted as part of CS4448 Residency 4

UL Science & Engineering Ethics

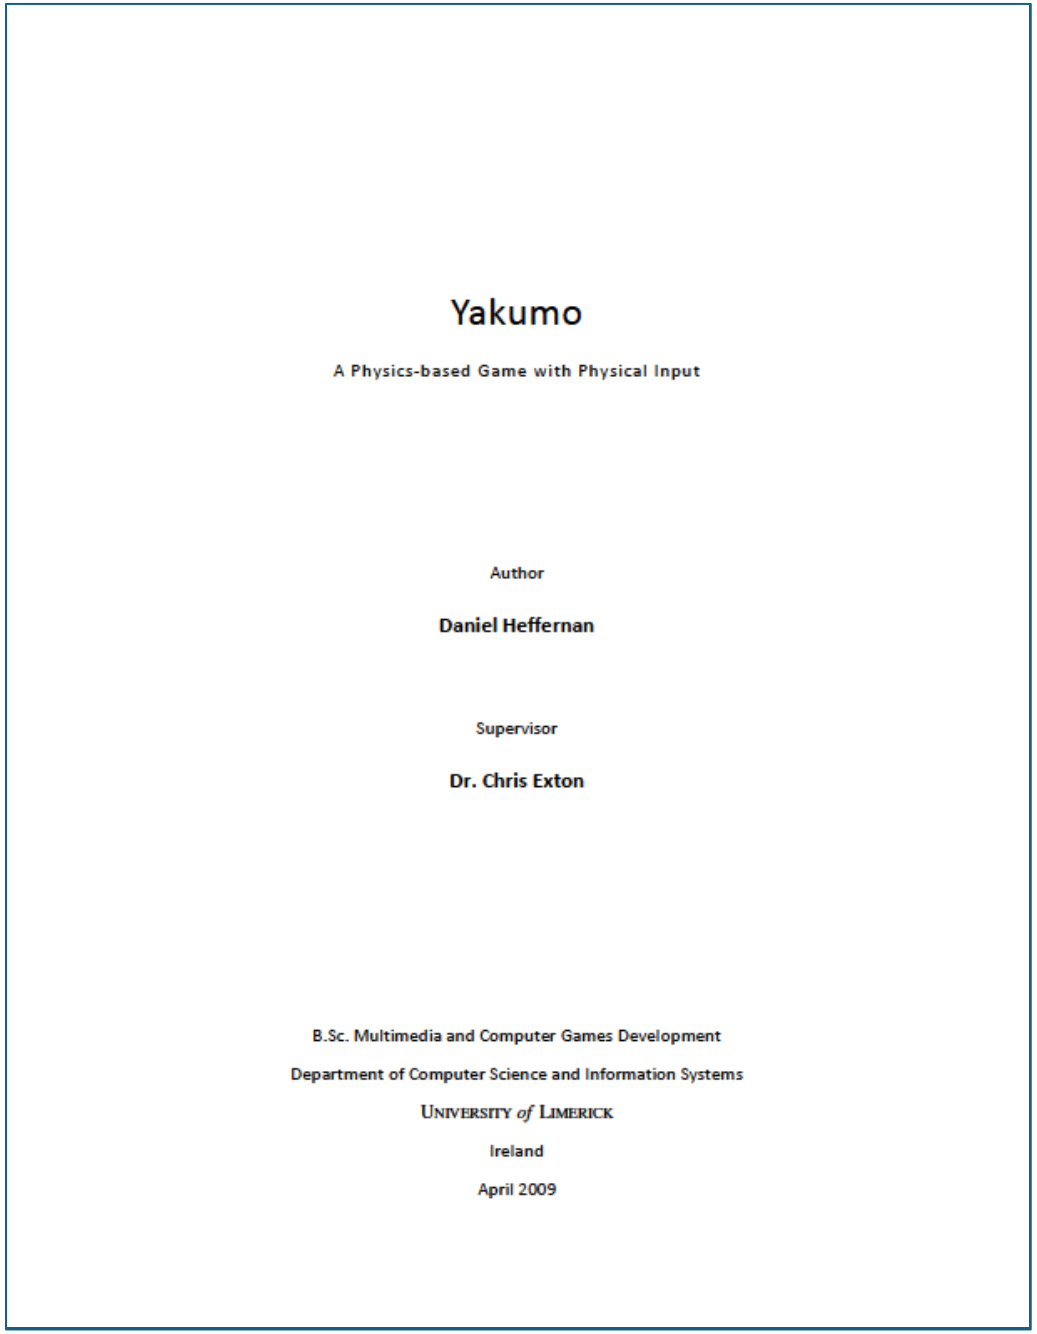

- If your project does not require human participation then you do not require prior UL Science & Engineering Ethical approval.
- For any projects that do involve human participation including but not limited to interviews, user testing or questionnaires then it is a requirement to get prior approval from the UL Science & Engineering Ethics committee.
  - S&E Research Ethics | University of Limerick
  - The deadline for the monthly Ethics Committee is the first Thursday of each month. Note the Committee does not meet in August.

Past FYP

- Daniel Heffernan

Yakumo

A Physics-based Game with Physical Input

Author

Daniel Heffernan

Supervisor

Dr. Chris Exton

B.Sc. Multimedia and Computer Games Development

Department of Computer Science and Information Systems

University *of* Limerick

Ireland

April 2009

Research Question

- A research question is a clear, concise, and open-ended question that centers your research for a paper, project, or literature review.
